

COBÁLIA PRO & BASIC FEATURES AND BENEFITS

Features	Benefits	Pro	Basic
Administrate several facilities	Administrate several facilities from one Cobália login and...	✓	
Alert system	Get LIVE updates with warnings and alarms and stay in the know	✓	✓
Analysis Module*	Analyze data to optimize the facility's production. This can be done across tanks and data types and will help to get a better understanding of how things are going, what can be optimized and, for example, why some tanks have a better production than others.	✓	
Basic production KPIs	Have a quick view of the performance of your facility/facilities (FCR , death-trend, ..)	✓	
Convoy*	Monitor health and location of livestock as they are transported	✓	
Customize CSV export configuration	Manage; time format, decimal separator and separation character to fit your needs	✓	✓
Customize custom measurements setup		✓	✓
Customize facility custom registrations setup	Create your own registrations on the facility. For instance, you can register additives used in the production.	✓	
Customize facility productions registrations setup	Define what you would like to register on your productions. Choose from loss types, feed, pharmaceuticals, average mass etc.	✓	
Customized facility production setpoints	Define your own setpoints (fx. temperature, goals being reached, density limits, average mass, excessive death trends, equipment set points)and get an alarm, if something is off track	✓	✓
Customized zone design	Create your facility as it appears in reality, which make it easier to navigate in your facility	✓	
Daily report*	See performance for the day	✓

COBÁLIA PRO & BASIC FEATURES AND BENEFITS

Features	Benefits	Pro	Basic
Data sharing*	In data sharing, you can choose which people/companies you want to share your data with, which data you want to share and set a time period for how long they may have access to the data.	✓	
Export facility data	Export all of your data in different formats (CSV/SEN/Excel/PDF) and process your data	✓	✓
Facility file management	Upload, download and share documents with the rest of your team with our file manager	✓	
Facility production reports	Get valuable insights from; facility, feeding, organization, production and trade report. All of them can be read and downloaded directly from Cobália	✓	
Facility silos management*	Keep track with the feed stock in your silos	✓	
Feed stock management	Keep track with your; feed type, variant, stock, value and estimated coverage	✓	
Feed types management	<p>Administrate your resources and fill in the feed type you use in your production.</p> <p>Keep track with your feed and fill in; feed type, variant, fish size, silo assigned and minimum balance.</p>	✓	
Hardware-based measurements	<p>Hardware-based measurements management/tracking</p> <p>Data from your equipment will be uploaded directly to Cobália, for you to track and manage</p>	✓	✓
Keep track of your sales and purchases using external contacts	Easy collaboration with associates, partners and workers	✓	
Livestock batch management	Track, grade, move fish, deplete tanks, sell to customers etc..	✓	
Livestock casualty management/tracking		✓	
Livestock feeding management/tracking		✓	

* Coming in the future

COBÁLIA PRO & BASIC FEATURES AND BENEFITS

Features	Benefits	Pro	Basic
Livestock pharmaceuticals management/tracking		✓	
Manage and track custom measurements	Use your measurements to see ...	✓	✓
Manage and track custom registrations	You can for example add additives, or other procedures relevant for your facility	✓	
Manage and track livestock	Manage and track livestock; pharmaceuticals, feeding, casualty and sampling	✓	
Manage facility users	<p>Choose between Administrator, Fish Master and Trustee and define the actions a user can perform.</p> <p>This makes it easy to collaborate with associates, partners and workers.</p> <p>Unlimited number of users.</p>	✓	✓
Manage/track livestock sampling	Manage and track your livestock sampling	✓	✓
Offline hardware updates	<p>Quick and easy update of your hardware</p> <p>Offline mode, update firmware and save data from Cobália hardware via Cobália Sync app</p>	✓	✓
Personalized dashboard	<p>Customize the dashboard with the information you need and get a quick overview of your facility.</p> <p>You can, for example, choose to display your tasks, the weather, alerts, feeding, or any other information regarding your facility.</p>	✓	✓
Pharmaceutical management	Keep track with your livestock and how much pharmaceuticals (vaccines and medicine) they have been given	✓	
Pin production data	Pin relevant production data, fx what can be seen in the production overview list and zone overview	✓
